🌐 LANGUAGES

English (Advanced)

Polish (Intermediate)

🎓 EDUCATION

Bachelor of Arts(BA) in Philosophy ("Cum Laude")
Sacred Heart University
2017 – 2021 | Fairfield, CT, USA

📇 PROFILE

I'm a **Full Stack Developer** skilled in **HTML, SCSS, BEM, JavaScript, React, Node.js, SQL, TypeScript, Redux, and Git/GitHub,** with an **Advanced level of English**. My experience in the **USA** trucking industry as a Logistic Coordinator and Dispatcher has sharpened my ability to manage complex workflows, optimize efficiency under pressure, and solve problems in high-stakes environments —skills that directly translate into building scalable and resilient web applications.

💼 PROFESSIONAL EXPERIENCE

Frontend Developer
Self-Employed(Freelance)
- Developed a custom website for managing electrical bills, ensuring a user-friendly experience
- Created interactive UI components and optimized page load speed for better UX
- Built **interactive and responsive UIs** using **React, JavaScript, and BEM**, ensuring smooth user experiences across devices.
Implemented **form validation** and **state management**, enhancing user input accuracy by **40%**

Carrier Sales Coordinator
Gwynn Logistics
2021 – Present
- Increased revenue by 15% by negotiating better rates.
- Managed a fleet of more than 100 drivers, ensuring 95% on-time delivery
- Secured 20+ high-value contracts.
- Expanded company partnerships with major customers
- Reduced empty miles by 30%, improving profitability and efficiency.

📂 PROJECTS

Simply Nothing:
The Simply Nothing page is a project that focuses on structure and efficient front-end development;
